

IRRINEX

Agricultural Irrigation Solutions for Modern Farms

IrriNex is a professional agricultural irrigation solutions provider headquartered in Hong Kong, with our own manufacturing facility in Shandong, China. With over 15 years of export experience, we specialize in drip irrigation, micro irrigation, sprinkler systems, and smart water management — delivering reliable, field-proven solutions to farms, orchards, and greenhouses across 60+ countries worldwide.

By directly controlling our production lines, we offer highly competitive pricing without compromising on quality. Every product undergoes rigorous quality control testing before shipment, backed by ISO 9001:2015, ISO 14001, CE, and SGS certifications.

WHY CHOOSE IRRINEX

- **Agricultural Irrigation Specialist**

We focus exclusively on agricultural irrigation and understand the real challenges — from plant health to water efficiency and long-term field reliability.

- **Advanced Manufacturing Equipment**

Our facility is equipped with advanced production lines including smart fertilizer injection machines, ensuring consistent quality and precision for every product.

- **Complete Product Range & OEM/ODM**

From drip tapes to valves, filters, and controllers — our extensive catalog supports full-system supply with flexible OEM/ODM customization to meet your market needs.

- **Fast Delivery from Stock**

Large-scale inventory and streamlined logistics mean shorter lead times, keeping your irrigation projects on schedule and your customers satisfied.

PRODUCT CATEGORIES

IrriNex offers a comprehensive range of over 10,000 irrigation products organized into five core categories. Each product line is designed for durability, efficiency, and ease of installation in the field.

▶ **Drip Irrigation**

Drip tapes, drip tubes, lateral pipes, mainline pipes, lay-flat hoses, inline/online drippers, and fittings for precise root-zone water delivery.

▶ **Micro Irrigation**

Micro sprinklers, rotating sprinklers, foggers, spray heads, and assemblies for orchard and greenhouse canopy coverage.

▶ **Irrigation Valves**

Bypass valves, mini valves, plug-in valves, and ball valves for reliable flow control and system management.

▶ **Irrigation Filters**

Disc filters, screen filters, hydrocyclone separators, and sand media filters to protect your system from clogging.

▶ **Irrigation Accessories**

Distribution pipes, fertilizer injectors (Venturi), fertilizer tanks, connectors, and system components for complete setups.

IRRIGATION SOLUTIONS

We provide complete, application-specific irrigation solutions designed for different agricultural scenarios. Each solution is engineered for optimal water efficiency, crop performance, and long-term operational reliability.

Vegetable Field Drip Irrigation

High water and fertilizer utilization, stable row uniformity, and pest prevention support — ideal for open-field vegetable production at any scale.

Orchard Drip Irrigation System

Pressure-compensating drippers, robust mainline pipes, and multi-stage filtration — built for reliable, long-term orchard irrigation.

Greenhouse Micro Sprinkler System

Canopy cooling, humidity control, and uniform mist coverage — purpose-built for nurseries, greenhouses, and protected cultivation.

Greenhouse Drip Irrigation System

Precise root-zone watering with minimal evaporation — delivers consistent moisture for healthy seedling growth and high-value greenhouse crops.

CERTIFICATIONS & QUALITY ASSURANCE

Quality is at the core of everything we do. Our products are manufactured under strict international standards and verified by recognized third-party organizations. We maintain full traceability from raw materials to finished goods.

QUALITY CONTROL PROCESS

- **Raw Material Inspection** — Every batch of raw materials is tested for compliance before entering the production line.
- **In-Process Monitoring** — Automated systems and manual checks at each production stage ensure dimensional accuracy and material consistency.
- **Finished Product Testing** — Products undergo pressure testing, UV resistance testing, and performance verification before packaging.
- **Pre-Shipment Audit** — Final inspection and documentation review before goods leave our facility.

FACTORY & FACILITIES

Our 50,000 m² production facility in Shandong, China, is equipped with state-of-the-art manufacturing lines for drip tapes, drip tubes, PE pipes, fittings, valves, filters, and complete irrigation assemblies. The facility operates year-round with a dedicated team of engineers and quality control specialists.

Warehouse & Stock

Raw Material Storage

- **Production Capacity** — Multiple automated lines running 24/7 for drip tapes, PE pipes, and fittings.
- **Stock & Logistics** — Large-scale warehouse with ready stock for fast order fulfillment and global shipping.
- **R&D Team** — Dedicated engineering team for product development, OEM/ODM design, and technical support.
- **Environmental Commitment** — ISO 14001 certified operations with responsible waste management and energy efficiency.

OEM / ODM SERVICES

IrriNex offers flexible OEM and ODM services to help distributors, contractors, and project developers build their own brand or customize products for specific market requirements. Whether you need private labeling, custom packaging, or product modifications, our team works closely with you from concept to delivery.

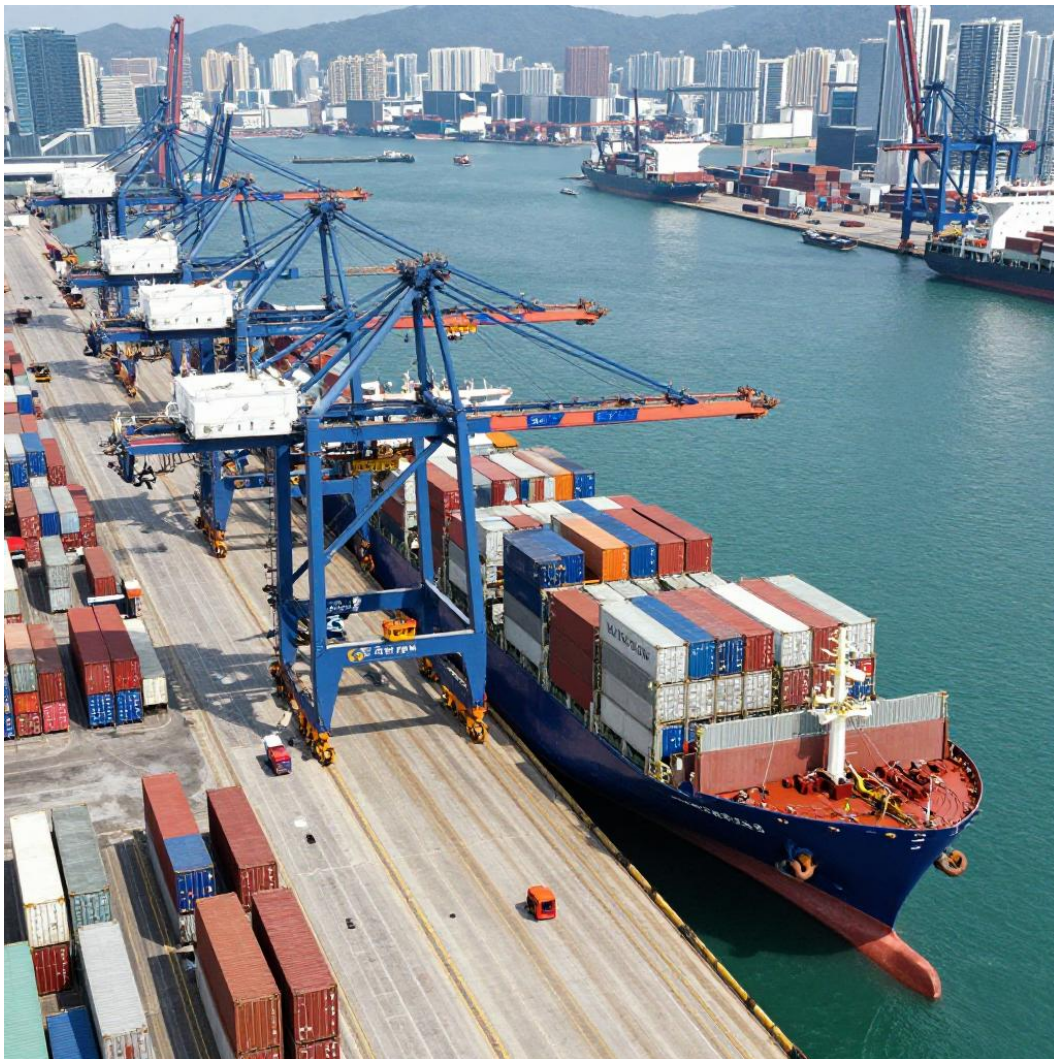

- **Custom Branding** — Private label packaging with your company logo, colors, and product codes.
- **Product Customization** — Modify drip tape spacing, wall thickness, flow rates, pipe diameters, and connector types to match your specifications.
- **MOQ Flexibility** — Competitive minimum order quantities with scalable pricing for repeat orders.
- **Dedicated Project Support** — Technical consultation, system design assistance, and after-sales support for large-scale projects.
- **Fast Turnaround** — Efficient production scheduling to meet tight project deadlines.

GLOBAL PRESENCE

IrriNex products are trusted by farmers, distributors, and irrigation project developers in over 60 countries across 6 continents. Our established global supply chain ensures reliable delivery, competitive pricing, and responsive customer service — wherever you are.
